Address Delivered Before High School,
Frankfort, Ky., La Fayette Day,
by Dr. U. V. Williams.

Marie Jean Paul Joseph Roch Yves Gilbert Motier De La Fayette, born Auvergne, France, 400 miles from Paris Sept. 6, 1757, of a noble family. His father was a Colonel in the French Grenadiers, and fell in the battle of Minden, a few months before his birth. His early training fell upon his mother, a lady of high position and excellent qualities. He entered college at the age of 12 years, and was a remarkably apt and precocious student. His mother died a year after his entering college, in 1770, and his grandfather, dying a few months later, left him in possession of a large fortune. At 15 he became a page to Marie Antoinette, Queen of France, the wife of Louis XVI, and daughter of the famous Marie Therese, of Austria, whom the populace so cordially hated and finally beheaded in 1782. His early social life was begun in a sea of discontent, and may have had much to do with shaping his life of open hostility to monarchy and tyranny. Here he was enrolled in the Queen's musketeers. Two years later, at the age of 17, he married (1774) the Countess De Noailles, a lady of high virtue and courage. In 1776 he was stationed at Metz, where some French officers gave a dinner to the Duke of Gloucester, who was the brother of the King of England, and who was to be the ruler of America. The bold effort being made by the Americans fired the soul of young La Fayette, and molded the character that stands alone in all history—constant, unselfish, magnanimous, the advocate of equal rights, the foe of tyranny, a Republican, and the friend of all Republican institutions.

The closing years of the 18th century ushered in a new era, formed a new hope. Truth had lighted her beacon fires on the hill tops of the new world, and the eyes of the old were turned in strained vision to behold the halo of liberty, and the masses to dream of equal rights. This new truth was first evolved, and directed against, British oppression. On June 7th, 1776, Richard Henry Lee, of Virginia, offered a resolution in Congress declaring "that the United Colonies are, and of right ought to be, free and independent States; that they are absolved from all allegiance to the British Crown, and that all political connections between them and the State of Great Britain is, and ought to be, totally dissolved." This resolution was adopted by nine out of the thirteen Colonies, and a committee of Thomas Jefferson, John Adams, Benj. Franklin, Roger Sherman and Robert R. Livingston were instructed to prepare a Declaration in accordance with the above resolution. The celebrated Declaration of Independence, written by Mr. Jefferson, based upon the equality of man, and the universal right of self-government, asserting that all government derives its just powers from the consent of

the governed (which declaration was adopted July 4, 1776), touched a responsive chord across the Atlantic, and fired the heart of the young French nobleman. From the smoking streets of Lexington, and the battle-swept heights of Bunker Hill rose to his mind the Republic of the New World. The French government was in sympathy with the movement in the American Colonies, and early in the autumn of 1776 sent to the Colonial Government secretly, 30,000 stands of arms, 30,000 uniforms, 200 cannon and large quantities of ammunition. Without this and other aid from France the Colonies never could have won their independence.

It was about this time in the Revolution that the final incentive of La Fayette was put into execution by the discussion of affairs at the celebrated dinner at Metz to the Duke of Gloucester. His determination to go to America was opposed by his family. Consulting with some of the French ministry in sympathy with his desires, was introduced by De Kalb to Silas Dean, one of the Commissioners sent by the Congress to France. A mutual conference and agreement was reached by which La Fayette was to go to America, in his own ship, fitted up at his expense and carrying arms, ammunition, etc., and with the promise of a commission of Major-General in the Revolutionary Army. Then he purchased a ship, but, finding it impossible to sail from a French port (not having the King's permission to leave the French service), he sent his ship to Spain. Here he met the violent opposition of his family and the French King, who had him arrested and brought back to France. But he was not to be deterred from his enterprise, and, disguised as a post boy, he crossed the Spanish frontier, and sailed on the 20th of April, 1777, and landed near Charleston on the 4th of June, after a tedious and perilous voyage. At Charleston he met Gen. Moultrie, and was so charmed by that gallant soldier, and his defense of the Fort on Sullivan Island that he gave him arms and accoutrements for 100 men.

From here he made his way to Philadelphia to the Congress, and reported, but to his surprise that body refused to carry out Dean's contract with him. Seizing his pen he wrote to Congress: "After the sacrifice I have made, I have a right to exact two favors; one is to serve at my own expense, the other is to serve as a volunteer." This epistle had its effect, and, on the 31st of July, 1777, he was made a Major-General, before he was twenty years of age; and the next day was presented to Washington, and from that moment sprang up an intimacy and friendship of kindred spirits only ended by death. On the 11th of September of that year was fought the battle of Brandywine, where the American forces were defeated and La Fayette wounded, here shedding his first blood. In this, his first battle, his courage was established, continuing

turned to attack Cornwallis, who finally took post at Yorktown. La Fayette cut off his retreat southward. Washington hastened from the north and Rochambeau entered the Chesapeake.

At the siege of Yorktown La Fayette made so impetuous an attack, sword in hand, that the redoubt was carried, and, on the 19th of October, Cornwallis capitulated with 8,000 prisoners, 214 cannon and 22 pairs of colors into the hands of the allies.

The name of La Fayette, Washington and Rochambeau sounded every where, and again, on the 22d of December, 1781, he sailed for France, where he was received with the greatest enthusiasm. New supplies and men were raised by France for another expedition, but before it sailed a final treaty of peace was signed, 20th of January, 1783.

In 1784 he was invited by Washington to him in his quiet retirement at Mt. Vernon. Every where he met the most enthusiastic welcome, and arrived at Mt. Vernon 19th of August, where he remained 12 days in the happiest reunion with the great Washington. Again he was received by Congress where, in a public address, he closed with these words: "May this immense temple of freedom ever stand a lesson to oppressors, an example to the oppressed and a sanctuary for the rights of mankind."

Of his connection with the French revolution and subsequent events, his arrest and imprisonment for two years, and the attempt of Washington to rescue him, and his subsequent return to France, through the great Napoleon, we need not here speak of, as it belongs to another nation's history.

On March 3, 1810, Congress instructed the Secretary of War to issue Gen. La Fayette warrants to 11,520 acres of land, one-half a township, which was located on the west bank of the Mississippi river, upon which patents were issued in 1810 and 1813.

In 1834 Congress, by unanimous vote, passed a Proclamation to invite him to visit this country. The invitation was accepted and while here Congress granted him \$200,000 in cash, and a township in Florida containing 23,028 acres. The city of Talahasse is located on part of it.

In 1824, when he visited this country, he made the tour of all the States and western territories, including the Gulf States, the Mississippi Valley and the States bordering on the Ohio. In May, 1825, he visited Kentucky. Debarking at Louisville, he came by carriage to Frankfort, on the old State road, and remained over night six miles west of Frankfort, at the residence of Mrs. Judge Brown, at Bridgeport, where he was met by a committee who escorted him to the then Sugar Tree Grove, now the property of Mr. Chas. Clark, 1½ miles from Frankfort. Here he was met by the military and the entire population of this and surrounding counties, when he was escorted into the Capital of Kentucky amid the booming of cannon and the wildest enthusiasm.

"On leaving the Capital he was escorted to Cincinnati by Gov. Desha and a number of the principal citizens of the State, and by them transferred to the citizens of Ohio on the banks of the Ohio, in Covington. In one of his addresses to the school children he used these words:

"I have with peculiar delight noticed the eagerness and warmth of juvenile feelings in behalf of an old American soldier. There I rejoiced to find not only additional testimonies of the personal kindness of their parents and tutors, but a most gratifying mark of their own early attachment to the principles for which their fathers fought and bled. Their eyes have first opened on the public prosperity and domestic happiness, which are the blessed lot of this American land. Here liberty and equal rights surround them in every instance, in every progress of their tender years, and in addition to their love of their country with other parts of the world where aristocracy and despotism still retain their baneful influence, they will more and more love their Republican institutions and take pride in the dignified character of their people. Men then reflect on the toils in the war of independence, on the source to which they owe these various institutions, they will be more disposed to cherish the sentiments of mutual affection between the several parts of the confederacy."

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes to say that ten years I had been suffering from rheumatism, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and alarm me. I was unable to sleep, had a number of fits, and my limbs gradually grew worse. I was using Dr. Miles' Remedy, Nervine and Narve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite increased, and I began to feel better, until now I am as rarely required to health as one of my age may expect. God bless Dr. Miles' Nervine."

Dr. Miles' Remedies are sold by all druggists. Send a postcard for guarantee, free bottle and money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

In Ready Made Clothing

I give you more value for your money than you can get at any other store. I buy the cloth direct from the mills, and it is manufactured into clothing under my own supervision. Every yard of it is thoroughly shrunk before it is cut, something that cannot be said of factory made clothing. I could buy factory made clothing and make just as much profit on it as I make on my own make of clothing, but I could not sell as good goods for the money. The advantage to me in manufacturing it is that it enables me to sell better clothing for less money than the other stores can sell. When this fact is known and appreciated by the wearers of ready made clothing it will result in a very large business for me. The advantage to you is that you can buy better goods for less money than you can buy elsewhere.

Suits of my own make, \$7.50, \$8.50, \$10.00, \$12.50, \$15.00

Major-General Jos. C. Breckinridge has been mustered out of the volunteer service and will return to his position as Inspector-General of the Regular Army. He has made an ideal officer in every position to which he has been called.

The General was given a farewell entertainment at Camp Hamilton on Tuesday evening. Every thing was done in fine style and passed off very pleasantly for all concerned.

A Fleshy Consumptive

Did you ever see one? Did you ever hear of one?

Most certainly not. Consumption is a disease that invariably causes loss of flesh.

If you are light in weight, even if your cough is only a slight one, you should certainly take

Scott's Emulsion

of cod liver oil with hypophosphites. No remedy is such a perfect preventive to consumption. Just the moment your throat begins to weaken and you find you are losing flesh, you should begin to take it.

And no other remedy has cured so many cases of consumption. Unless you are far advanced with this disease, Scott's Emulsion will hold every inducement to you for a perfect cure.

Fatal Accident.

A man by the name of Frank Jones, claiming to be from Indiana, either fell or jumped off of the L. & N. accommodation train, on Tuesday night, near Hatton. He was seen when he fell off, the train was stopped and he was brought to this city, where he was taken to the King's Daughters Hospital, and Dr. E. E. Hume called to his aid. Dr. Hume found that the man was beyond human aid.

The man lived for some three hours after arriving here and then died, never having recovered consciousness.

Buys a Farm.

Colored Soprano Singer—Madam Washington Jones.

The colored elite of the city is aroused over a fashionable and interesting entertainment to be given at the St. John's A. M. E. Church, Tuesday evening, October 25.

Madam Jones, it is said, is the leading singer of her race in America, and has a rich and rare voice. She is classical and a trained and cultivated singer. She will be supported by some of the best local talent, and there is every reason to believe that as the affair is for the benefit of the church, the seating capacity will be inadequate.

FRANKFORT, OCTOBER 22, 1898.

Another Sea Horror.

The British vessel, the *Blengfelin*, burned off Margate on Monday morning, and fifteen persons perished in the panic. These included the Captain, his wife and crew. The vessel was loaded with naphtha, and it is supposed that an explosion caused the conflagration. The vessel burned so rapidly that, although a tug was along side and life boats went to the rescue, but few were saved.

Still Further Larripon Needing.

It is becoming more and more evident every day that Spain will have to be larruped still further before she comes to a realizing sense of her true condition.

Her authorities seem to have forgotten that she sued for peace; that the terms of peace were laid down broad and deep in the protocol, which they agreed to; and that all that she can do in the premises is to abide by the terms therein stated, which, as every one knows, was for the immediate evacuation of Cuba and Porto Rico, and then to answer to any other terms that might be agreed upon so far as the Philippines are concerned.

In only the single instance of Porto Rico has Spain shown any disposition to comply with her solemn promises as contained in the protocol.

Therefore, it becomes our duty as a nation to stand stiff and straight for the literal compliance of Spain with all the conditions, and then if Spain still dares, delays and disputes, call her to time at the muzzle of our 13-inch "Spanish convinners," with Dewey's men to man them. The time for trifling with her effete nations has passed.

La Fayette Day.

Wednesday, the 19th of October, was appropriately celebrated in honor of La Fayette, in the city schools. The rooms were decorated with flags and bunting, while the exercises of the children were appropriate to the occasion, consisting of patriotic songs historical readings, and lessons from the life of the distinguished French patriot, who figured so unfailingly in the struggle of the colonies for liberty.

The High School and grades seven and eight held a joint entertainment in the chapel. The room was profusely decorated with flags, and over the center of the platform the "tri color" of France was entwined around the "stars and stripes." The exercises were quite enjoyable, at the close of which Mrs. Jennie C. Morton and Dr. U. V. Williams were called upon and responded with remarks timely and appropriate. [Dr. Williams' address is given in full elsewhere.—ED. ROUNDABOUT.]

Several other visitors were present. The penny collection amounted to \$11.84. The colored school also held exercises in honor of the day.

Proceedings of District Teachers' Meeting.

On Saturday, Oct. 15th, 1898, the teachers of the Bald Knob Missionary District met at Lebanon Baptist Church, and were called to order by the Vice-President.

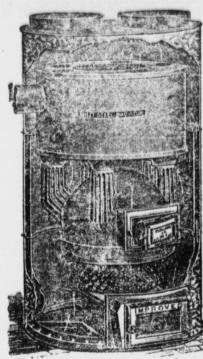

After singing, Rev. L. D. Stucker read, for the scripture lesson, 3d chapter of Proverbs, 13-20, and offered prayer. Devotional exercises were closed by singing that stirring hymn "Go Work To-day."

Mr. Ira Green then delivered the welcome address in his usual happy and pleasing way, and made all feel welcome, indeed, to the bounties of the Lebanon people.

In a neat and modest way Miss Agnes Brawner expressed the appreciation of the teachers in reply.

Miss Eva Cain then gave a select reading, which was enjoyed by all.

Mr. Vardiman Moore told the teachers that the multiplication table

can be successfully taught by object lessons. He also believes that the district meetings should be made better by discussing subjects of more general interest to the public than merely "My Method of Teaching Arithmetic or Geography."

Superintendent Miss Lucy Pattle read a paper from State Superintendent Davidson on observing Oct. 19th as La Fayette Day, and making an offering for the purpose of erecting a monument to the memory of the lover of American independence.

Here the exercises were varied by adjourning for dinner, which was bountifully spread and enjoyed by all. This hour was made more pleasant by the delightful climate and view which Lebanon affords.

Misses Maggie Johnson, Nannie Baker and Pearl Moore placed the association under obligations for excellent recitations.

The subject of "Language" was introduced by Miss Agnes Brawner in such a way as to convince all of its importance in the curriculum of our common schools.

Miss Nattie Oberman read an essay on "Woman as an Educator." She declared her to be in the front rank.

Miss Prudence Brawner gracefully defended the "Much-Abused Trustees." We are sure all of her trustees are model ones.

"Geography" was taken up by Miss Lizzie Hahn, and discussed by Mr. Ira Green and others.

Mr. W. E. Thompson added much to the occasion by a talk on "The General Principles of Education."

He gave a description of the old-fashioned teacher and timely suggestions as to what the present teacher should be.

All expressed themselves as well pleased, and reluctantly said good bye when the exercises closed.

L. D. STUCKER, Secretary.

When death has laid his cold and relentless hand upon me, I shall find a kind and loving husband, the world will not be blamed for asking herself if all her years of difficulty and trouble, and helplessness were worth the white, when it comes so soon to this tragic end.

If men would only take the most common sense precautions against the encroaching disease, the world would have fewer houses of mourning, and fewer women left alone almost helpless before the bed of life is half over.

If the world is half over,

and the stone is half made, the work together, either to make or unmake,

If they work wrong, they deplete and pollute the body, and the polluted blood mean sickness and death.

If they work right, they purify and enrich the blood. A man's body is rich and pure, and lives in relative health, and is healthy. Headaches, biliousness, indigestion and costiveness, which men generally disregard, as being of no avail, is working against, instead of for him.

Philipine Letter.

We give below a letter from our young friend, Sergeant Ira S. Shy, Co. B, 18th U. S. Regulars, which is postmarked "Philipine Station, San Francisco, Cal." indicating that Manila is a station of the San Francisco postoffice.

We are glad to publish this letter from our friend:

MANILA, P. I.,
Sept. 7, 1878.

Mr. Geo. A. Lewis, Frankfort, Ky.: DEAR SIR — Thinking that the people of Frankfort would like to know what is my position at the Philipine Islands, I enclose here with an official copy of letter and order published on the eve of Gen. Merrill's departure for Paris, where he goes as representative of the commission that meets September 15, 1878, to decide upon the disposition of these Islands.

I have been commanding the troops that the volunteer forces will soon return to the States, but until the regulars—the 18th U. S. Infantry—will be here for some time. We are quartered in barracks formerly occupied by the Spaniards and enjoying good health, notwithstanding the many discomforts one is compelled to put up with, namely: mosquitoes, heat, &c.

Yours truly,

IRA S. SHY.

OFFICE OF THE MILITARY GOVERNOR AND HEADQUARTERS DEPARTMENT OF THE PACIFIC, MANILA, P. I., Aug. 30, 1898.

Lieut.-Col. C. M. Bailey, Commanding 18th Infantry:

SIR—On the eve of my departure I desire to express to you my regret over my association of the way in which I have been supported by all the troops of my command, the cheerful fortitude with which all the officers and soldiers of the Eighth Corps, present, enduring the hardship of the campaign and their gallantry in action, is a matter of pride and I thank you again and yourself for your most valuable services. Very respectfully,

(Signed) W. MERRETT,
Major General U. S. Army.

HEADQUARTERS 2D BRIGADE, 2D DIVISION, 3D ARMY CORPS, CALLO GRAL DE SALANO 16, August 29, 1898.

GENERAL ORDERS NO. 14.

In compliance with orders from the War Department, the undersigned hereby relinquishes command of the brigade. In taking leave of the troops who manned the trenches in front of the Spanish defenses, and who led the advance into Manila, the undersigned desires to thank them for the hearty and gallant manner in which they made to every demand upon them, and to express his appreciation of the high soldierly qualities which they displayed during the siege, in the attack, and in maintaining order in Manila since the occupation.

The difficulties of climate, of government, of life to which we were subjected, have never been surpassed in any work which American soldiers have been called upon to perform, and for two weeks were forced to remain quiet under a constant and deadly fire from the enemy until the plans for a joint land and naval attack were perfected. These difficulties were met in a spirit not only free from complaint, but of generous enthusiasm. We have our reward in the capture of this fortified city with slight loss. You thus forever associated your names with one of the most important events in American history and have won the gratitude and esteem of all your countrymen.

(Signed) F. V. GREENE,
Brig. General Commanding.

Official: G. W. MARTIN,
First Lieut. and Acting Adjutant,
18th Infantry.

Thanks.

We are under obligations to Lieut. Hugh Rodman, U. S. S. Raleigh, for a copy of "The American Soldier," a newspaper published at Manila, Philipine Islands, of date Sept. 10, 1898.

With the usual push and energy of Americans Mr. Geo. A. Smith, backed by others, has established this publication in this far away colony of the United States. It has a fair share of advertisements for so young a paper. We wish it every success.

We desire also to return our thanks to our thoughtful friend, Lieut. Rodman, for thus remembering us.

Pipe Tobacco Combine Goes to Pieces.

The long talked of combine of the plug tobacco manufacturers, which it was thought would control the output of the country, has gone to pieces.

It was all smooth sailing at first and everything looked propitious for the combine until Monday, when it developed that certain large corporations had refused to comply with the terms, and then this house of cards went to pieces.

It Hangs On

If it was only health, we might let it cling.
But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time.
And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. It loosens the grip of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

**Dr. Ayer's
Cherry Pectoral
Plaster**

draws out inflammation of the lungs.

Advice Free.
Remember we have a Medical Department. If you have any complaint whatever and desire the best medical advice possible, write to us and we will send the doctor freely. You will receive a prompt reply without cost.

Three Doctors in Consultation.

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best to be chosen in the second place; what reason (i.e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Indolition, Dr. Experience, and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Indolition would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. Whew.

Monday, while the rain was pouring down here there was a big fall of the "beautiful" at Kansas City, St. Joe and other points in the far west. The precipitation amounted to from three to four inches, and great damage was done to telegraph and telephone lines. The mercury dropped down below freezing.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife takes Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than any other cough medicines combined. Mr. NICKLE of Nickle Bros., merchant, Nickleville, Pa. For sale by J. W. Gayle.

Another Wreck.

The papers of Saturday and Sunday were filled with accounts of the wreck of the Steamship Mohegan, off the coast of Cornwall. A large number of lives were lost and much suffering occasioned. The vessel ran ashore upon the rocks and was dashed to pieces.

DeWitt's Witch Hazel Salve has the largest sale of any salve in the world. This fact and its merit has led dishonest people to attempt to counterfeit it. Look out for the man who attempts to deceive you when you call for DeWitt's Witch Hazel Salve, the great pile cure. Tyler & Hemphill.

Y. M. C. A. NOTES.

Sunday last was observed as "Soldier's Day" by the local Association, the program for the Men's Body being arranged accordingly, with special reference to the great work accomplished among the soldiers by the Army Christian Commission and State Y. M. C. A. Committees. Patriotic hymns were sung, the Misses singing solo parts, the audience singing together very sweetly, and an inspiring address on "The Model Soldier" was given by Rev. Geo. Darsie, whose earnest message left a deep impression upon the mind and hearts of those present.

The fall work of the Y. M. C. A. was finally inaugurated on Thursday evening of last week, at which time the first social gathering of the season was held. There was an excellent attendance of young men and lady friends, including the members of the Ladies Committee, whose presence and help is so great. Refreshments were served by the Misses Harris and her orchestra, and the members of his orchestra, and also by other good friends follows:

Vocal Solo—Miss Maud Whitehead, Piano Solo—Misses Maud and Hattie Taliaferro.

Quartette—Selected—Messrs. Bull, Bridges, Kenney and Jones.

Every number on the program was evidently appreciated, and the Misses Harris and her orchestra, appearing for the first time before an audience in the usual Association rooms, were heartily endorsed. Following the music, the guests adjourned to the gymnasium, where refreshments were served by the ladies and a pleasant, social hour was spent by all.

The gymnasium class for young men has organized this week, and will hold regular sessions on Tuesdays and Fridays at 8 p. m. A special class for business and professional men will be conducted on the same days at 4:30 p. m. and the Juniors will have their exercises on Wednesdays afternoon and Saturdays morning.

The popular game of basket ball will be played in connection with the class drills and also by the teams on Monday and Thursday evenings.

The Men's Rally will be held in the Y. M. C. A. gymnasium Sunday at 3:30 p. m. Mr. Frank Chin will speak and a vocal solo will be rendered by Mr. J. M. VanDerveer. All men cordially invited.

Crops Damaged.

By reason of the continuous rains of the last few weeks, we learn that the crops of corn and tobacco in Trimble county, and several other counties contiguous thereto, have been very much damaged. A good deal of the corn is molding in the shock and on stalk, and the tobacco is molding in the barns. This is sad news for many.

The Colonial Society.

The "Colonial Daughters" met on Thursday, at the residence of Miss Sallie Jackson. Letters and papers pertaining to the work of the society were read and discussed.

Paragraphs were read from a newspaper of 1811. Descriptions of Florida in it, when "Ponce De Leon," a famous Spanish navigator, from Porto Rico, some time after the Spaniards had possession of the island, discovered Florida, or the Fountain of Youth. The country was peopled with savages, nor did he at that time make any settlement. It was only at St. Augustine and at Pensacola that they formed what could be properly called settlements, about 1696, which have since increased.

Also an interesting review of the famous opinion of Judge Davidge in the case of Harry Innes v. H. Marshall, and other extracts were read.

The work of this noted society has been especially devoted to the interest of Frankfort, and now it embraces the State at large. Whatever pertains to the advancement of the one and the uplift of the other, will engage their intelligent help. Having so far succeeded in all that they have undertaken, with unbroken faith in the motto of the State, "United We Stand," &c., they have proceeded along those lines of work for the benefit of the Capital and the State, and so cleared the way for securing better things for both in the future.

Kentucky needs the assistance of her own D. A. R.'s and C. D.'s and S. A. R.'s. It will hearten the people to see these patriotic societies make straight the pathways at home and build elegant halls and temples upon their own soil for the housing of their historic treasures. Kentucky has long enough pursued the over-generous trend of society—that of contributing money to every purpose away from home—and sometimes they "leave the roofs leaking and the floors bare" that gave their childhood shelter and a place of rest. Such things must not be said of patriots and philanthropists. In the language of scripture, they must first "look well to their own households." See that their altars and temples are suitably adorned and ornamented, and embrace all the requirements of buildings which re-

flect the wealth and culture of the people. The influence flowing out from such sound, home-honoring policy can not fail to bring to its people the respect and admiration of the world.

Shameful.

A certain Mississippi U. S. Senator, Sullivan by name, has disgraced himself by making an assault upon the motives and character of gallant Gen. Joe Wheeler.

Gen. Wheeler's reputation is too well known for honor and bravery to be hurt by any such a crawling viper as Sullivan. Who is Sullivan, anyway? Probably some crossroads whipper-snapper, unknown a hundred miles from home.

Our little boy was afflicted with rheumatism, his knees bent at times, unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him. We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave us so much relief that we got a second and one to our surprise, found it even sound and well. J. T. BAYS, Pastor Christian Church, Needesworth, Kan. A Clever Trick.

It certainly looks like it, but there is really no trick about it. Any boy can try it without harm to back or weak kidneys, asthma or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures, constipation, headache, fainting spells, rheumatism and melancholia. It is purely vegetable, a mild laxative and relaxes the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at J. W. Gayle's Drug Store.

One Minute Cough Cure surprises people by its quick cures and children may take it in large quantities without the least danger. It has won for itself the best reputation of any preparation used to-day for colds, croup, trilling in the throat or obstinate coughs. Tyler & Hemphill. 49

LOUISVILLE TOBACCO MARKET.

FURNISHED BY GLOVER & DURRETT
LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 1,097 hds., with receipts for the same period of 421 hds. Sales on our market for the week ending Jan. 1, 1898, total \$8,255 hds. Sales of the crop of 1898 on our market to date amount to 72,035 hds.

We have had another week of light sales. On Wednesday our market showed decidedly a better activity than every week selling between \$8 and \$10. The real common smokers, selling below \$6 seem a few bids better, but the improvement was not so noticeable in these sorts. The few hds. of good, sweet filtry leaf that appeared this week were sold from \$12 to \$15 per hds. Sorts, selling below \$8, are in strong demand at prices about as high as have ruled at any time during the season. A few hds. of the new crop with some merit appeared during the week and sold from \$8 to \$10 per hds. Some new hds. offered so far has been in bad condition and also shows the effect of the hot, rainy weather we had during curing season. The crop has all been housed, and judging from the offerings and a good many samples we have seen, I think it is very deficient in color and a great deal of it shows the effect of house burn.

The following quotations fairly represent our market for burley tobacco in 1898 crop:
